Dear Attorney Campbell,

Thank you very much for bringing your presentation to Hopedale. "Be a Parent, not a Pal," was excellent and effective! Your thorough coverage of the statistics and the real life situations clearly had an impact on the parents. Their understanding of the law and the consequences was increased. In a town this small, the material you presented will echo throughout many parent circles. That to me makes even a limited attendance worthwhile. The feedback has been wonderful!

The education and service you provide through this program is truly outstanding. We are very appreciative of your time, your efforts and your passion for this cause. I hope to work to have the presentation to the students become part of our plan moving forward. I will also recommend these presentations to my colleagues in other school systems.

Sincerely,

Dot Pearl
Guidance Counselor
